MADE IN USA

## V O G U E

For over 20 years, Mediterranea has been tuned in to the latest trends and evolutions in the American design community. Today's times and tastes require a more sophisticated, upscale look, while not sacrificing high-end design. Mediterranea meets today's demand with the Vogue series - which true to its name, delivers the look of our times with the quality you've come to expect from Mediterranea.

Vogue introduces a pure and modern cement look in a porcelain tile that's been fine-tuned to meet the demands of today's American market. We've added just the right amount of contrast and depth in Vogue's colorations, maximizing our exclusive Dynamic HD Imaging inkjet technology to deliver a look that American designers and homeowners seek. When combined with stunning 12"x24" mosaic sheets and our 1"x2" mosaic collection, you have high-end design in a series that's suitable for either a modern living room or the largest commercial area.

Vogue is today's look - made with the very best technology. You can find it all in this exciting new series by Mediterranea.
