DYNAMIC **HD** IMAGING®

HIGH DEFINITION INKJET PORCELAIN

B A Y S I D E

The tile artisans at Mediterranea have taken high-tech design of porcelain tile to the next level with a pioneering series targeted squarely at the American marketplace. Welcome to Bayside -- a perfect combination of cement and stone that features cutting-edge design and yet, has mass-market appeal.

Bayside is designed for the new age we live in - delivering a clean, more minimalist look sought after by architects and designers, while offering a totally unique blend of graphics and colors that are poised to be volume sellers in the U.S. market. Utilizing Dynamic HD Imaging™ inkjet technology to replicate cement and stone graphics, Mediterranea blends these two essential elements into one porcelain tile product - delivering a look never before seen in designer showrooms or grand estates.

DYNAMIC **HD** IMAGING™

HIGH DEFINITION INKJET PORCELAIN

Featuring color-body composition and fully rectified for elegant, precision installations, Bayside is available in the popular 12"x24" size, and comes in two stunning colors -- Camel and Pearl. Add to that specially designed mosaic strips in a 12"x24" sheet-mounted size and 1"x2" mosaics, you have everything needed for a truly unique and original design.

Like no other series to date, Bayside unites the essential looks of cement and stone. It is a new series for the American marketplace that delivers the quality and innovation you've come to expect from Mediterranea.
