Thanks to the great works of painters as diverse as Pablo Picasso and Edvard Munch, abstraction has long been revered in the art world. Their visions broke new ground and paved the way for a new generation of masters to expand our artistic viewpoint.

Mediterranea has also chosen to pursue a bold artistic and creative path in the creation of its all new DREAM series -- providing designers and architects a transcendent wood look never before seen in the American marketplace, and completely reinventing the genre. Dream features an innovative, minimalistic design approach -- delivering the sought-after essence of wood while staying true to a contemporary color palette worthy of the world's great artistic visionaries.
