	Dynamic C.O.F.	BOT 3000	> .42
	MOHS		7
	Breaking Strength	ASTM C648	> 250 lbf

Basic black. Elegant white. You don't often see these classic color combinations merged together into a single product, but the tile designers at Mediterranea have other thoughts. Mediterranea has fused these two essential designer colors in a unique and creative way to create a stunning new porcelain tile collection that is truly a designer's dream. Welcome to the all-new INKWELL series.

Inkwell represents a new evolution of modern porcelain tile design. Working with just these two core colors, Mediterranea has leveraged its Dynamic HD Imaging® technology like never before to vividly display black and white stone graphics on a 6" x 36" porcelain tile. The result is a carefully-blended look found only in the rarest of stones - perfect for designer-oriented floors and walls in any commercial or residential setting.

Commercially-rated for superior performance to last a lifetime, Inkwell is made in the USA in a 6" x 36" format, specifically designed to highlight the graphic mix when installed. It's a completely unique black & white concept like no other in the marketplace. Designed and manufactured exclusively by Mediterranea.
